Project Status Ready for Submission

Project 2

Enhancing a Quiz App in iOS

Are you ready to have your project reviewed by a fellow Techdegree student? Before you submit your project, make sure you have double-checked your work, we want you to pass the first time!

If you get your project back and it needs work, you'll have to wait 1 day before you can resubmit your project.

[Submit for Review](#)

- [Instructions](#)
- [How you'll be graded](#)

To get a passing grade you'll need to submit a project that meets the following requirements. If your project receives a "Needs Work" rating on any of these tasks, then you'll need to edit your project and re-submit it until it "Meets" or "Exceeds" each task requirement.

	Needs Work	Meets Expectations	Exceeds Expectations
Storyboard Enhancement	<ul style="list-style-type: none">• Storyboard has not been updated to display elements correctly on iPhones with screen sizes 4.7 inches and 5.5. inches	<ul style="list-style-type: none">• Storyboard has been updated to display elements correctly on iPhones with screen sizes 4.7 inches and 5.5. inches	<ul style="list-style-type: none">• N/A
Create custom structs or classes	<ul style="list-style-type: none">• Individual questions are still modeled using Dictionaries	<ul style="list-style-type: none">• Individual questions have been modeled using a class or struct.	<ul style="list-style-type: none">• N/A
Refactor according to MVC	<ul style="list-style-type: none">• Question data is still defined in ViewController.Swift	<ul style="list-style-type: none">• Question data has been abstracted into its own class or struct and placed in a new Swift file.	<ul style="list-style-type: none">• N/A

	Needs Work	Meets Expectations	Exceeds Expectations
Accommodating 4 answer choices	<ul style="list-style-type: none">• App can not correctly display or evaluate 4-choice questions. Answer option buttons are not spaced or sized according to mockups	<ul style="list-style-type: none">• App can correctly display or evaluate 4-choice questions.• Answer option buttons are spaced or sized according to mockups	<ul style="list-style-type: none">• Displays a mix of 3 and 4 choice questions, while re-spacing UI elements, not simply hidden, disabled, or marked as unused (e.g. with the string 'N/A')• Only 1 view controller is used in the app• Correct answer is displayed when player guesses incorrectly .
Random, non-repeating questions	<ul style="list-style-type: none">• A single game can exhibit repeated questions, or hard coding of values is being used to prevent repetition.	<ul style="list-style-type: none">• Random questions are generated without repetition.	<ul style="list-style-type: none">• Game includes a lightning mode with 15 seconds countdown timer for each question set• Game includes sound effect for a correct answer and an incorrect answer
